

FPSC Provincial Mentorship Program

Connecting Physicians, Inspiring Growth

The FPSC Provincial Mentorship Program connects family physicians with mentorship at the individual, local, and provincial levels. Building on existing initiatives, this program expands opportunities for professional growth and collaboration throughout the province.

WHY JOIN?

- Receive comprehensive support as a new or experienced family physician expanding your practice into long-term care (LTC), inpatient care (IPC), pregnancy and newborn care (PNC), and longitudinal family practice.
- Contribute to recruitment and retention in family practice and facility-based care in BC
- Gain guidance from experienced physicians and contribute to the growth of others
- Access individualized support for up to 5 hours of 1:1 mentorship for both mentee and mentor compensated at the hourly JCC sessional rate (up to 2 hours for mentees in the locum stream) for each program stream.
- Pregnancy and Newborn Care with expanded clinical skill training is supported through [Maternity Care for BC \(MC4BC\)](#).
- Opportunities to connect with peers and mentors both locally and provincially.

**Mentorship is not restricted to new-to-practice, rural, or urban family physicians. It is accessible to new and experienced family physicians beginning to work in an area of practice (LTC, IPC, PNC, and longitudinal family practice).*
