What is the FPSC Maternity Care Network Grant?

The grant provides a \$5000 payment to family physicians who are actively participating in the FPSC Maternity Care Network Initiative and who commit to continuing to participate in the FPSC Maternity Care Network Initiative until June 30, 2024. The grant is intended to support family physicians to maintain maternity care services in hospital until a long term payment model is implemented for maternity care in hospital.

Who is eligible for the grant?

To be eligible for the grant, family physicians must be actively participating and meeting the requirements of the Maternity Care Network Initiative (14010) as of April 1, 2024 and commit to doing so until June 30, 2024. Please see the [FPSC Maternity Care Billing Guide](#) for more details about the requirements of the FPSC Maternity Care Network Initiative.

Are family physicians eligible for the grant if they go on temporary absence prior to June 30, 2024?

Physicians who have a temporary absence prior to June 30, 2024 but otherwise meet the eligibility requirements of the grant can claim the grant. To do so, the physician must make best efforts to arrange for another care provider to provide the same scope of practice and similar days/hours of service to their maternity patients.

For the purpose of the grant, a temporary absence is defined as a continuous absence or non-continuous reduction in working days that is not expected to occur regularly. This would most commonly include absences related to illness, parental leave, caregiving, or military deployment. A temporary absence does not include indefinite absences such as retirement or departure from maternity practice in BC.

What is the payment amount per eligible family physician?

The payment amount is \$5000 per eligible family physician.

How do eligible family physicians apply for the grant?

Eligible family physicians must submit an online application form to apply for the grant. The application form will require physicians to confirm that they understand and meet the requirements of the grant. Additional instructions on how to apply for the grant will be publicly communicated in March 2024.

What is the deadline for applying for grant?

Eligible family physicians must submit an online application form by May 31, 2024. In March 2024, FPSC will email information about applying for the maternity grant to family physicians who are actively participating in the FPSC Maternity Care Network Initiative.

How will the grant be paid?

After FPSC has reviewed and approved your application, Doctors of BC will send you an email confirming the payment, and then Doctors of BC will remit the payment to you in the following weeks. The payment will be remitted to the same bank account that you've linked to receive sessional payments from Doctors of BC. Please login to your Doctors of BC account (My Account > My Details > Bank Accounts) to verify that your bank account is linked.

The grant payment will not generate a tax slip. All physicians will receive a payment confirmation from Doctors of BC. Please keep the payment confirmation for your reference.

Physicians who are subject to paying GST on services through their corporations must charge GST on their sessional time. To have GST added, a completed GST Registration Designation Form is required. To obtain the form, please email us at accountspayable@doctorsofbc.ca, subject line “ATTN: Sessional GST”. If your GST number is already on file with Doctors of BC, then GST will automatically be applied to your grant payment. Note that as every situation is different, we encourage physicians to discuss these payments with their accountant.

When is the grant paid?

The grant is expected to be paid to eligible family physicians in May 2024.

Can family physicians apply for the grant more than once?

Each individual family physician can only receive one grant per time period. Physicians who received the grant in in June 30 to December 31, 2023 and/or January 1, 2024 to March 31, 2024 may apply for this grant if they commit to continuing their participation in the FPSC Maternity Care Network Initiative from April 1 to June 30, 2024.

Are family physicians working under an Alternative Payment/Funding Model eligible?

Yes. Physicians working under an Alternative Payment/Funding Model are eligible provided they meet the eligibility requirements of the grant.

I have more questions about the grant. Who do I contact?

If you have questions about the grant, please contact fp.billing@doctorsofbc.ca.
